

# CLEAN WIND

No emissions to add to global warming  
No tankers, ships, pipelines, transporting fuel

# QUIET

IT'S THE VERY RARE GREATER SPOTTED DIVA BIRD!  
A turbine takes up very little land. The tower is just 4mtrs. across the base.  
ONE modern wind turbine can produce enough electricity for more than 1,000 homes.

# SAFE

No fall out  
No smell  
No toxic waste  
No fire  
No explosions

# FREE

AND EVERLASTING  
We are the windiest country in Europe  
LET'S USE IT!

LOCAL GENERATION  
for local people

DIVERSIFYING INTO WIND TURBINES HAS GONE TO YOUR GEORGES HEAD - HE'S GOT REAL CREATIVE  
YEH! - DON'T TOUCH THEM KING EDWARDS THEY'RE UP FOR THE TURNER PRIZE!

**Oil is the world's FAVOURITE FUEL.**  
We use it to produce ELECTRICITY in our power stations and factories  
To transport the goods of industry. Heat our homes. Run our cars.  
lights, televisions, computers.  
WE NEED to BREAK our ADDICTION to oil and Have more CHOICE!  
Almost 2/3 of oil comes from the MIDDLE EAST there will always be unrest, supply and price uncertainty.  
The continuing unrest make

In 2001 U.K. Wind Turbines produced enough electricity to power nearly 322,000 homes.
